get_resources_info *Get info about resources for a country*

Description

This returns a list containing

- The version of the package installed
- The URL from the DESCRIPTION
- A data frame with the files and their hashes for this country

Usage

```
get_resources_info(iso3)
```

Arguments

iso3 Country iso3 to get resources info for

Value

A list containing info about resources for this country

get_shipp_workbook_path
Get the path to the workbook template

Description

Get the path to the workbook template

Usage

```
get_shipp_workbook_path()
```

Value

Path to the workbook template

load_shipp_exdata *Load dependencies for SHIPP PSE tool*

Description

Load dependencies for SHIPP PSE tool

Usage

load_shipp_exdata(data, iso3)

Arguments

data	Name of data dependency (see below for full description).
iso3	Country iso3

Value

Data input for SHIPP PSE tool.
Loaded SHIPP data.
